

Registration in Uplifter

General Registration

Welcome to registration with Killarney Skating Club, powered by Uplifter! Registration is easy – the first step is to ensure you have a member account created (see related “*Account Set-up*” document). Your **member account** should be the name of the parent, guardian or adult skater that will be completing the registrations. Once you have a “member account” you can then add your “participant(s)” or skater(s) to your account from there. With your **participants** in the system, you will be able to select which participant you wish to register for a particular program.

Member Account = person completing registration (generally the parent or guardian)

Participant = skater(s)

You can access online registration from several pages on the website but the easiest is to select the “Registration” tab through the top or mobile menu and navigate directly to the program you are registering for. This will filter all the programs so that you only see what is relevant.

The “Schedules and Updates” page will also have 1 year of past schedules for reference only as this is subject to change, as well as any important scheduling information.

Comp/STAR Registration

If you are registering for Comp/STAR programs use the direct page from the Registration tab. You can use the filters on the left side to filter by JUNIOR or SENIOR programs to ensure you are registering for the correct program time. The programs will also be subdivided by “Junior” or “Senior” program and will have “JR” or “SR” in the program name unless it is an OPEN session available to both groups.
